The Swedish Financial Supervisory Authority is responsible for the supervision of Lannebo Fonder AB in relation to this Key Information Document.

This fund is authorised in Sweden and managed by Lannebo Fonder AB.

Lannebo Fonder AB is authorised in Sweden and regulated by Swedish Financial Supervisory Authority.

The date of production of this KID is **14 April 2023**.

WHAT IS THIS PRODUCT?

Type: UCITS

Term: There is no maturity date for the fund. The fund company have a right to close the fund and redeem the units, please see the prospectus for more information.

Objectives: The fund invests in shares of small and medium-sized listed companies in the Nordic region, with an emphasis on Sweden. The companies' market capitalisation at the time of investment may not exceed 1% of the total market capitalisation of the Swedish stock market. At the end of December 2022, this meant a market capitalisation of approximately SEK 92 billion. The fund does not invest in companies that violate international conventions or in companies that produce and/or distribute controversial weapons. The fund also does not invest in companies where more than 5% of the company's turnover comes from the production and/or distribution of tobacco, cannabis, alcohol, weapons, gambling or pornography. Furthermore, the fund does not invest in companies where more than 5% of the company's turnover is derived from the extraction of fossil fuels (coal, oil and gas). The fund is managed on the basis of Lannebo Fonder's investment philosophy of active management. This means that we focus on fundamental company analysis and valuation of individual stocks in companies whose business models we understand. We are independent in our management and make independent decisions. The focus is on each individual investment in the fund and its prospects for the future. The most attractive stocks, in the opinion of the managers, are the largest holdings in the fund, regardless of the holdings in the fund's benchmark. The fund's benchmark is Carnegie Small Cap Return Index Sweden (calculated in euro). We try to avoid factors that only affect share prices in the short term, which results in investing in companies where we can have an informed opinion on the future of the company and where the valuation is attractive. The fund normally invests in 40-60 companies. Deviations from the benchmark can be both large and small, please refer to the Fund's annual report or prospectus for an explanation of the fund's actual deviations from its benchmark over time. The objective is to provide a good return over the long term, taking into account the level of risk. The management of the fund can be compared to its benchmark. The fund does not normally pay dividends; all income is reinvested in the fund. Deposits into and withdrawals from the fund can normally be made on any banking day.

Intended Retail Investor: This fund may be suitable for those who plan to hold their investment for at least five years and who understand that the money invested in the fund may increase or decrease in value and that there is no guarantee that you will get back all the capital invested. To invest in the fund, you do not need to have any particular prior knowledge or experience of funds or financial markets.

Custodian: Skandinaviska Enskilda Banken Ab (publ)

Annual and half-yearly reports, prospectus, latest unit prices and other practical information can be obtained here in Swedish and English: www.lannebo.se

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets. We have classified this product as 5 out of 7, which is a medium-high risk class. This means that

the fund has a medium-high risk of increases and decreases in unit value. The indicator mainly reflects the increases and decreases in the value of the shares that the fund invests in.

Risks not captured by the risk indicator: liquidity risk, the fund may hold large positions in smaller companies, which means that the level of risk when liquidity in the market is limited may be higher than indicated by the indicator.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the fund and an appropriate benchmark over the last 10 years. Markets may develop quite differently in the future.

Recommended Holding Period: 5 years

Example Investment = € 10,000

Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€1,410	€1,310
	Average return each year	-85.9%	-33.4%
Unfavourable	What you might get back after costs	€6,280	€7,120
	Average return each year	-37.2%	-6.6%
Moderate	What you might get back after costs	€11,300	€18,170
	Average return each year	13.0%	12.7%
Favourable	What you might get back after costs	€18,740	€22,930
	Average return each year	87.4%	18.1%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario show what you might get back in extreme market circumstances.

Unfavourable Scenario: This type of scenario occurred for an investment between December 2021 and March 2023.

Moderate Scenario: This type of scenario occurred for an investment between October 2013 and October 2018.

Favourable Scenario: This type of scenario occurred for an investment between November 2016 and November 2021.

WHAT HAPPENS IF LANNEBO FONDER AB IS UNABLE TO PAY OUT?

A fund investor owns fund units in a fund. The fund is managed by the fund company, while the fund's securities are held in a separate custodian. The depositary keeps the fund's securities separate from its own assets. In the event of bankruptcy of the depositary or the fund company, the fund's securities are protected from bankruptcy.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amount that are taken from your investment to cover different types of costs. These amount depend on how much you invest, how long you hold the fund and how well the fund does. These amounts are illustrations based on example investment amount and different possible investment periods. If the fund is part of another product, e.g. unit-linked insurance, there may be other costs for that product.

We have assumed:

-In the first year you would get back the amount that you invested (0% annual return). For the 5 years we assumed the product performs as shown the moderate scenario.

-EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	€180	€1,690
Annual cost impact (*)	1.8% each year	2.0% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.7% before costs and 12.7% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

WHAT ARE THE COSTS? (CONTINUED)

Composition of costs

One-off costs		If you exit after 1 year
Entry costs	No entry costs are payable when you acquire your investment.	€0
Exit costs	No exit costs are payable when you dispose of your investment.	€0
Ongoing costs		
Other ongoing costs	1,6% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€164
Portfolio transaction costs	0,1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€13
Incidental costs		
Performance fees	There is no performance fee for this product.	€0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 5 year

The fund has no minimum holding period requirement but as it invests in equities it is suitable for a medium to long investment horizon. You should be prepared to invest in the fund for at least 5 years. You will normally be able to redeem your fund units on any business day without any additional charge.

HOW CAN I COMPLAIN?

If you have any complaints about the product, you may lodge your complaint by writing to the Company at Lannebo Fonder AB, Klagomålsansvarig, Box 7854, 103 99 Stockholm or by email to kundklagomal@lannebo.se or via the Company's website at www.lannebo.se. If you have a complaint about a person who is advising on, or selling, the product you should pursue that complaint with the relevant person in the first instance.
