The fact that the fund has a main geographical focus on Sweden means that at least 50 per cent of the fund's assets will focus on Sweden. The fund may, as part of this main focus, invest in such financial instruments as i) are admitted to trading on a regulated market in Sweden, or subject to regular trading in any market in Sweden that is regulated and open to the public, or meets the requirement to within one year from the issue be considered this, or ii) issued by an issuer which has its registered office in Sweden, or iii) traded in Swedish kronor. § 8 Valuation

The value of the fund is calculated by subtracting from the fund's assets those liabilities that pertain to the fund, including unpaid taxes as determined by the management company and the fees set out in § 11 below.

The fund's assets are calculated as follows:

- Transferable securities, money-market instruments, derivative instruments and fund units are valued at their current market value (latest price paid or, if unavailable, latest bid price). If such prices cannot be obtained or are misleading in the view of the management company, transferable securities, money-market instruments and derivative instruments and fund units may be included at a value arrived at by the management company on an objective basis.
- In the case of the transferable securities and money-market instruments referred to in chapter 5, section 5 of the Swedish Securities Fund Act, a separate valuation will be established for the market value. The basis for the separate valuation will be market prices from unapproved regulated markets or so-called market makers, other financial instruments admitted to trading on regulated markets or an index with adjustments for differences in, for example, credit risks and liquidity (reference values), discounted cash flows (current valuation or proportion of equity (year-end value)).
- In the case of OTC derivatives the market value will be established in accordance with a separate valuation. The basis for the separate valuation will be market prices from unapproved, regulated markets or so-called market makers, a reference value based on an identical derivative admitted to trading on a regulated market or a market value based on generally established valuation models (e.g. Black & Scholes for European options).

- Depositary's fees.

- Other liabilities in respect of the fund.

As the fund has several share classes, united with different conditions in some respect, the management company take this into account when calculating the value of a unit in each share class. The value of a unit in each share class of the fund is made up of the share class divided by the number of outstanding shares of the relevant class.

The value of the units is to be calculated by the management company daily (each banking day).

§ 9 Sale and redemption of units

§ 9.1 General regulations

Sales (unitholder's purchase) and redemption (unitholder's sale) may be conducted on every banking day. Any request for sale or redemption is made as detailed on the management company's website: www.lannebofonder.se.

If the funds for redemption are acquired through the sale of securities, then such sale and redemption must be carried out as soon as possible.

The sale of shares is done in minimum amounts of SEK 100.

A request for redemption may only be withdrawn if permitted by the management company.

The sale price for a fund unit is the fund unit value on the banking day that the sale is conducted. The redemption price for a fund unit is the fund unit value on the banking day that the sale is conducted. Sale and redemption are conducted at a rate that is not publicised to the unitholder at the time of the request for sale or redemption respectively.

The fund may be closed for sales and redemptions in the event of extraordinary circumstances that mean that a valuation of the fund's assets cannot be performed in such a way as to uphold the equal rights of all unitholders, for example, if one or more of the markets the fund is traded in are partially or completely closed.

§ 12 Dividends

As a general rule, the fund does not distribute dividends. However, the management company can decide on distributing dividends to unitholders if, in the management company's opinion, it is necessary to take advantage of the unitholders' joint interests. Dividends are then distributed on a suitable day and to the extent that is considered appropriate. For the dividends accruing in a fund unit, the management company will, following any deductions for withholding tax, purchase new shares on behalf of unitholders who are registered to receive fund units on the day set aside for this purpose. The dividend on behalf of a unitholder – following any tax deductions – will instead be paid to the unitholder. Such a request must be carried out on the day determined by the management company, if not before.

§ 13 The fund's financial year

The fund's financial year is the calendar year.

§ 14 Semi-annual report and annual report, and amendment of fund rules

The fund rules may be amended only by decision of the management company's board, and the decision must be submitted to the Swedish Financial Supervisory Authority for approval. Once the decision has been approved, it must be made available at the offices of the management company and the depositary and be published by such other means as the Swedish Financial Supervisory Authority instructs.

§ 15 Pledging of units

Unitholders may pledge their units in the fund provided that the unitholder is not an insurance company that has invested insurance premiums on behalf of policyholders pursuant to the Swedish Insurance Business Act (2010:2043) or a pension institution that has invested pension savings on behalf of pension savers pursuant to the Swedish Individual Pension Savings Act (1993:931).

In the event of pledging, the unitholder or his representative and/or the pledgee are to notify the management company of this in writing. The notification should state:

- who the unitholder is,
- who the pledgee is,
- which units are involved in the pledge and
- any restrictions on the scope of the pledge.

The management company is to register the pledge in the register of unitholders and inform the unitholder in writing that the pledge has been registered. The pledge ceases to apply once the pledgee has informed the management company of this in writing. The management company is entitled to charge the unitholder a registration fee. This fee must not exceed SEK 500.

§ 16 Limitation of liability§ 16.1 Limitation of the management company's liability

Without deviating from the provisions of Chapter 2, §21 of the Swedish Investment Funds Act, the following applies regarding the management company's liabilities:

The management company is not liable for damages caused by the depositary. Nor shall the management company be liable for damages caused by unitholders or others that violate the law, ordinances, regulation or these fund rules. In this regard, unitholders are informed that they are responsible for documents submitted to

The management company is not liable for damages caused by - Swedish or foreign - stock exchanges or other marketplaces, depository bank, central securities depository, clearing, or others providing similar services, including a contractor hired with due care by the management company or depository. The same applies to damages caused by the insolvency of the above-mentioned organizations or contractors. The management company also is not liable for any damages arising from disposal restrictions that may be applied to the management company or depository in respect of financial instruments.

In the event the management company is prevented from taking measures, fully or in part, due to circumstances mentioned above, the measures may be postponed until the obstacle has ceased. If, as a result of such circumstances, the management company is prevented from executing or receiving payment, the management company or unitholder shall not be liable to pay interest on late payment. Corresponding exemption from the obligation to pay interest on late payment applies even if the management company temporarily defers the date of purchase or redemption of fund units pursuant to §10.

§ 16.2 Limitation of the depository's liability

Without deviating from the provisions of Chapter 3 14–16 §§ of the Swedish Investment Funds Act, the following applies regarding the depository's liabilities:

In the event that the depository has lost financial instruments deposited with the depository, the depository shall without undue delay return financial instruments of the same kind or issue an amount of equivalent value to the management company on behalf of the fund. However, the depository is not liable for the loss of financial instruments caused by an external event outside the depository's reasonable control, and whose consequences were impossible to avoid even though all reasonable efforts have been made, such as damage caused by Swedish or foreign legal statutes, measures taken by Swedish or foreign authorities, event of war, strike, blockade, boycott, lockout, interruptions in data communications or other similar circumstances. The depository is not responsible for damages caused by the insolvency of the said organizations or contractors. However, a contract for the custody of assets and ownership controls does not limit the depository of its liabilities for losses and other damages under the Swedish Investment Funds Act.

The depository is not liable for damages arising from the management company, unitholders of the fund, the fund or others in the event of disposal restrictions which may apply to the depository regarding financial instruments. The depository is in no case responsible for indirect damages. If the depository is prevented, fully or in part, from execution of this agreement due to circumstances referred to in the first paragraph, the action may be postponed until the obstacle has ceased. In case of deferred payment, the depository shall not pay interest on late payment. If interest is paid, the depository shall pay interest at the interest rate applicable on the due date. If, as a result of the circumstance referred to in the first paragraph, the depository is prevented

from receiving payment for the fund, the depositary has the right to interest payments for the period during which the issue hindered payment only under the terms of the due date.

§ 17 Permitted investors

The fact that the fund is aimed at the general public does not mean that it is aimed at the kind of investor whose selling of units in the fund or participation in general is contrary to the provisions in Swedish or foreign legislation or regulations. Nor is the fund aimed at the kind of investor whose selling or holding of units in the fund means that the fund or the management company will be obliged to take registration measures or other measures that the fund or management company would not otherwise be obliged to take. The management company is entitled to refuse to sell to the kind of investor referred to above in this paragraph.

The management company may redeem the unitholder's units in the fund – despite opposition from the unitholder – if it turns out to be the case that a unitholder has subscribed to units in the fund contrary to Swedish or foreign legislation or regulations or, as a result of the unitholder's selling or holding of units in the fund, the management company becomes obliged to take registration measures or other measures that the fund or management company would not otherwise be obliged to take if the unitholder did not hold units in the fund.

Redemptions in accordance with the previous paragraph are to be executed immediately. The stipulations in § 9 above regarding payment will also apply in the case of redemptions in accordance with this § 17.

The fund rules were adopted by the Board of the Management Company 11 January 2018.
