The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

ISIN code: SE0000740680
Share class: SEK

Lannebo Fonder AB, registration no 556584-7042

Objective and investment policy

The fund is focused on Sweden and invests in equities without a specific industry focus.

The fund does not invest in companies that violate international conventions or in companies that produce and/or distribute controversial weapons. The fund also refrains from investing in companies in which more than 5 per cent of the company's turnover comes from the production and/or distribution of tobacco, cannabis, alcohol, weapons, gambling or pornography. The fund also refrains from investing in companies in which more than 5 per cent of the company's turnover comes from extracting of fossil fuels (coal, oil and gas).

The fund is managed according to Lannebo Fonder's investment philosophy of active asset management. This means that we focus on fundamental company analysis and valuation of individual stocks in companies whose business models we understand. We select companies from thorough analysis based on our own knowledge and regular meetings with the companies. We are independent in our management of, and in our decisions regarding, the fund. The most attractive shares, according to the managers, are the largest holdings in the fund, regardless of the holdings in the fund's benchmark. The fund normally invests in 20 to 30 companies.

Deviations from the benchmark index can be both larger and smaller, please see the fund's annual report or information brochure for an account of the fund's actual deviations in relation to its benchmark over time. The objective is that over time, taking into account the level of risk, generate a stable return. The management of the fund may be compared with the fund's benchmark.

The fund normally pays no dividend and all income is re-invested in the fund.

Purchase and sale of fund units may normally be made every banking day.

This document is valid for share class SEK.

Benchmark: Carnegie Small Cap Return Index.

Recommendation: The fund may not be suitable for investors who plan to withdraw their money within five years.

Risk and reward profile

Lower risk							Higher risk
1	2	3	4	5	6	7	
Typically lower rewards							Typically higher rewards

About the indicator: The risk and reward indicator illustrates the relationship between risk and potential returns from an investment in the fund. The indicator is based on how the fund's value has changed over the last five years.

The fund's investments: The fund belongs to category 6, which means a high risk of both increases and decreases in value. Category 1 does not mean the fund is a risk free investment. Over time the fund may shift to both the right and left on the indicator scale. This is because the indicator is based on historical data that is not a guarantee of future risk and returns.

The equity market is generally characterized by high risk, but also the potential for high returns. The indicator mainly reflects the increases and decreases in the value of the shares that the fund invests in.

Risk factors not shown through the indicator: The indicator reflects the fund's most important risks.
