### Objective and investment policy

The fund has a main geographical focus on Sweden, but also an opportunity to partly make investments with different focus. The fund's gross exposure to the equity market may not exceed 10 per cent related to investments with different focus than against Sweden.

The fund follows specific sustainability related criteria in the investments. The fund selects companies based on three main themes: A better environment, a healthier life and a sustainable society. As an alternative, the fund shall receive one of the highest grades in our sustainability analysis. The fund does not invest in companies that violate international conventions or in companies that produce and/or distribute controversial weapons. The fund also refrains from investing in companies in which more than 5 per cent of the company's turnover comes from the production and/or distribution of tobacco, cannabis, alcohol, weapons, gambling or pornography. The fund also refrains from investing in companies in which more than 5 per cent of the company's turnover comes from extracting of fossil fuels (coal, oil and gas).

The fund is managed according to Lannebo Fonder's investment philosophy of active asset management. This means that we focus on fundamental company analysis and valuation of individual stocks in companies whose business models we understand. We select companies from thorough analysis based on our own knowledge and regular meetings with the companies. We are independent in our management of, and in our decisions regarding, the fund. The most attractive shares, according to the managers, are the largest holdings in the fund, regardless of the holdings in the fund's benchmark. The fund normally invests in approximately 30 companies.

Deviations from the benchmark index can be both larger and smaller, please see the fund's annual report or information brochure for an account of the fund's actual deviations in relation to its benchmark over time. The objective is that over time, taking into account the level of risk, generate a stable return. The management of the fund may be compared with the fund's benchmark.

This document is valid for share class B SEK traded in SEK. The fund provides an annual dividend in share class B SEK amounting to at least 5 per cent of the fund's net assets at the end of the year. Dividends is made within five banking days from the end of January. Please note that dividends will only accrue to unitholders who was a unitholder in a dividend share class at the end of January the following year.

Purchases and sales in the fund can usually take place every weekday for the rest of the year.

**Benchmark:** SIX Portfolio Return Index, the fund's benchmark was before December 20, 2018 SIX Return Index.

**Recommendation:** The fund may be unsuitable for investors who plan to withdraw their money within five years.

### Risk and reward profile

Lower risk

Higher risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Typically lower rewards

Typically higher rewards

**About the indicator:** The risk and reward indicator illustrates the relationship between risk and potential returns from an investment in the fund. Since significant changes of the fund's objectives and investment policy has taken place over the past five years, the indicator is based on the history available after the change (from 20 December 2018) supplemented with history of relevant comparative data.

**The fund's investments:** The fund belongs to category 6, which means a high risk of both increases and decreases in value. Category 1 does not mean the fund is a risk free investment. Over time the fund may shift to both the right and left on the indicator scale. This is because the indicator is based on his-

torical data that is not a guarantee of future risk and returns.

The equity market is generally characterized by high risk, but also the potential for high returns. Since a proportion of investments are made in currencies other than the Swedish krona, the fund is also exposed to currency risk that can both reduce and increase returns apart from changes in the price of the shares that the fund invest in.

**Risk factors not shown through the indicator:** The liquidity risk, i.e. the risk that the securities may not be sold or bought at the intended time without a major reduction in price or high costs, is not fully reflected in the indicator. The fact that the fund may invest in companies of varying sizes places greater demand on the management of liquidity, so that the fund is always ready to meet redemption and take advantage of business opportunities that are in the unit holders' interest to use. It further requires that the fund has an appropriate mix of holdings in order to manage liquidity risk in an effective manner.

The charges are for the calendar year 2021 and may vary from one year to another. The annual report of the fund will contain details of the exact charges for each financial year.

Ongoing charges include the amount paid for the management, administration, marketing and other costs incurred including research costs for the fund. The ongoing charges do not include variable costs for securities trading (brokerage fees).

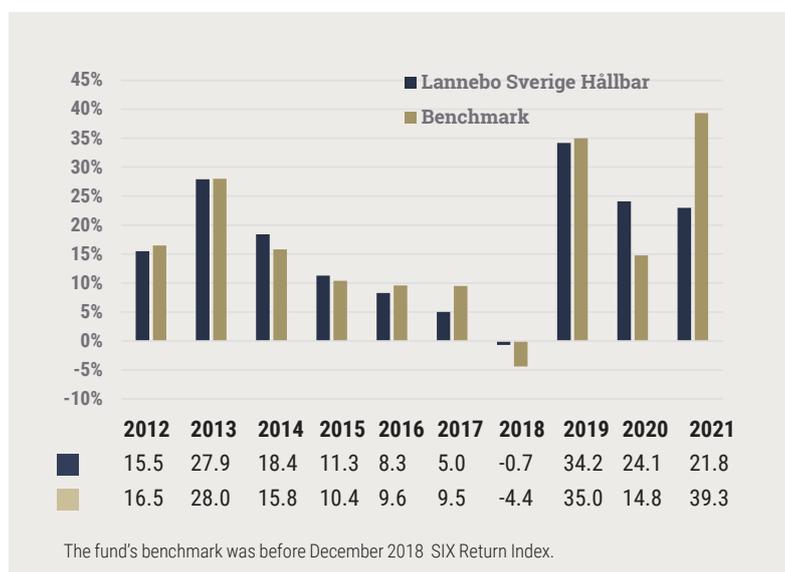

The charges cover the fund's costs including costs for marketing and distribution. These charges reduce the potential returns.

## Past performance

The fund's performance (return) is calculated after deduction of ongoing charges. Any entry and exit charges have not been taken into account. The performance for all years has been calculated in Swedish kronor and with dividends reinvested in the fund. The fund's benchmark is also presented in the chart. The fund does not intend to track its benchmark.

Please note that past performance has been achieved under circumstances that no longer apply. Significant changes of the fund's objectives and investment policy has taken place since the fund rules was altered December 20, 2018. At the same time the fund changed its benchmark.

Past performance is not a guarantee for future performance. The fund was launched in 2010.
